

Sleeve Hanger

Sue Kirk, (563) 505-0596

For all of us who are going to enter quilts into our upcoming show, here are some directions on how to make the required hanging sleeve.

Make a tube for a 9" wide piece of fabric that is 4" less than the width of the entry. Baste the top and bottom of the sleeve securely to the entry back. The location of the sleeve shall be no more than 90" from the bottom of the entry and 2" from each side.
